**Q3. Based on your overall impression, please rate the preparedness of SWU education graduates.**

1	I highly value graduates from Southern Wesleyan. Thanks for all you do prepare future teachers!	Jul 26, 2011 10:03 AM
2	Even though only about 20% of my teachers are graduates from SWU, they are well prepared. Two of the three teachers I was able to hire for the upcoming year received their undergraduate degree at SWU.	Jul 23, 2011 11:18 AM
3	Two of our SWU teachers in the past had issues with classroom management. Decisions they made or comments that they made were not appropriate for middle school students. More knowledge and experience in working with this level of students may improve this situation. Middle school teachers have to set high expectations for their students and for their students. If the university can work with students more on personal interactions, classroom management, being observed by classmates for critiques and role playing. Service work at schools in any level would increase their exposure as well.	Jul 10, 2011 9:41 PM
4	I am very pleased with SWU grads. We have only grad students, but they have distinguished themselves. As a CU grad, it is embarassing to say how superior this program is to what CU offers. I see SWU beating CU on personalization and reaching out to and for students to offer this graduate experience. The done in 18 months and cohort method is very effective.	Jul 8, 2011 1:53 PM
